

EUROSLOT Series 220

Functionality and high-quality appearance
for a wide range of applications

Data sheet

EUROSLOT Series 220

A triumph of floating lightness: this is the overriding visual impact of the EUROSLot 220 Series. Accordingly, this architectural solution is ideal for use in buildings or interiors, wherever the maximum load-bearing capacity of the material is not a priority. With its thin profile wires measuring just 2.28 x 3.55 mm, it can be used both as ceiling panels and highly decorative room dividers.

Technical data:

| Wire | Width mm | Height mm | Rod | Width mm | Height mm |
|------|----------|-----------|-----|----------|-----------|
| 220 | 2.28 | 3.55 | C30 | 3 | 5 |

| Grid | Material AISI | Slot (@) mm | Open area % | Weight kg/m ² | Thickness mm |
|------------|-----------------|-------------|-------------|--------------------------|--------------|
| 222 | 304/316L | 2.28 | 50 | 11.7 | 8 |
| 223 | 304/316L | 3 | 56.8 | 10.3 | 8 |
| 225 | 304/316L | 5 | 67.7 | 8 | 8 |
| 22x-spe(*) | 304/316L/Duplex | (x) | (x) | (x) | (x) |

(*) : special needs : We can adapt the slot size according to your needs from 1mm to several centimeters. We keep available other support rods that can be spaced @ multiple of 25 mm
